Recital 15 a (new)	AM 44	Andersdotter	<p>Oral AM:</p> <p>(15a) Documents and works, including audio and audiovisual productions, produced by public service broadcasters and other bodies or their subsidiaries for the fulfilment of a public service broadcasting remit should as a principle be re-usable. The possibility of accessing and re-using such publicly funded documents would be particularly beneficial to stimulate production of derivative creative content and would allow a future lifecycle for works that are held in public broadcasters' archives.</p> <p>During its review of the directive, the European Commission may address the relevancy, feasibility and conditions of including within its scope the access to and re-use of documents and works, including audio and audiovisual productions, held by public service broadcasters and other bodies or their subsidiaries for the fulfilment of a mission of general interest.</p>	+
